ABSTRACT

PURPOSE: To obtain a hair dye composition capable of providing good hair dyeing and gray hair hiding effects by light hair dyeing treatment such as routine hair-care behavior.

CONSTITUTION: A two-pack type hair dye composition is obtained by using the first agent and the second agent in combination. The first agent contains a ferrous salt and the second agent contains at least one compound selected from the group consisting of propyl gallate, ascorbic acids and plant extracts. A silicone oil is contained in at least either of the first and the second agents.
